

## **ET Series**

Three-phase Energy Storage Inverter

- Compact size & light weight
- Maximum efficiency up to 98.2%
- Uninterruptible power supply
- Wide battery voltage range
- Fanless design, quiet operation

The brand new GoodWe ET series is a three-phase high voltage energy storage inverter that enables enhanced energy independence and maximizes self-consumption through export limit feature and time of use shifts for reduced electricity bills. Covering a power range of 5 kW, 8 kW and 10 kW, the ET series allows up to 10% overloading to maximize power output and features Uninterruptible Power Supply (UPS) to inductive loads such as air conditioners or refrigerators with an automatic switchover time of less than 10 milliseconds, providing grid-tied savings when the grid is up and offgrid independence and security when it is down or compromised.

<sup>\*:</sup> Maximum operating voltage is 950V.

\*\*: According to the local grid regulation.

\*\*\*: Can be reached only if PV and battery power is enough.

\*\*\*: No Back-up Output.
